

Visual Composition Assignment 3  
Copyright Restrictions and Permissions

**public service announcement**

1. What is a public service announcement? Use the internet to find out about a 'public service announcement'. You may need to visit 2 or 3 websites to get a really good explanation of what it is. You may also know what one is... we hear and see them often.
2. Make a public service announcement on all the parts of copyright restrictions, (rules, regulations, need to know info) and permissions regarding copyright, tips, do's, don'ts, things one needs to be careful about, big no-no's with copying/stealing/taking etc.,) that students attending Beaverlodge Regional High School really need to know and be aware of so they do not get in trouble or be accused of plagiarism or cheating.

You can chose any form of how you want to make/present/design/create this public service announcement. It can be for radio, TV, poster, brochure, flyer, sign, web advertisement, short movie clip, it is up to you, as long as your message covers essential and relevant information on copyright restrictions and permission (look this up on internet too---BUT NO COPYING—this would be breaking copyright restrictions and permissions, something you are try to educate others about). If you do some form of print media, enhance the design with some graphics and eye catching fonts. Think elements and principles of design and incorporate into you document.
